

# Implementing General Data Privacy Regulation (2 days)

## *Course Description*

General Data Privacy Regulation (GDPR) provides a single, comprehensive regulation that is compulsory for all organizations processing the personal data of individuals living within the European Union.

All enterprises that conduct business and hold personal data will fall under the mandates of GDPR. Given the global scope of today's digital-based commerce, the impact of GDPR certainly will be felt by many businesses across the world and located outside the physical borders of the EU.

Avoid costly noncompliance fines and ensure your enterprise's compliance with GDPR—enroll for 2 days interactive learning experience today!

## *Course objectives*

This course is designed to address data protection and privacy concerns found within commercial and not-for-profit enterprises. It offers a hands-on view of how enterprises should approach the practical challenge of achieving an adequate level of GDPR compliance.

At successful completion of this course, participants should expect to gain competencies in the following areas:

- Clear understanding with GDPR requirements
- Data Privacy Impact Assessment Process (DIAP)
- Defining/Implementing Data Privacy Program
- Practical approach to GDPR Compliance

### **The course includes:**

- Course reference manual containing copy of course slides, support documents, quizzes and answers
- Course Certificate

## *Audience*

Anyone in the organisation who is responsible for implementing and governing the Data privacy regulations.

### ***Prerequisite***

There are no prerequisites for this course. However, a general understanding of concepts related to IT Governance and Management, Information Security, and privacy of personal data would be an advantage.
